Title : AN 174	ANAL PERIANAL FURUNCULOSIS (Set of 4)	4 Pages
Doc Name :	e.g Crohan's Disease in Humans	
Last Updated: 13-10-18		

Natural support Treatment for these conditions for a Canine with Crohn's Disease.

Also for topical healing of infection and ulcers - use a natural Aloe Vera spray on treatment. **ie Lifestream Aloe Range 185ml** This healing spray can be used 4 x daily - topically on ulcers. Ask us to get in for you if you do not live in Australia. * Buy from a Health food store - This healing spray can be used 4 x daily - topically on ulcers to prevent and heal infection and drying ulcers. Please continue treatments, during this time if you have any problems please contact us. The treatment of the herbal formula's must be maintained initially for at least 3 months min.

Crohn's Disease, Ulcerative Colitis and Antibiotic-Associated Colitis all effect the intestines of the bowel. Crohn's Disease is a chronic inflammation of the intestinal wall, most commonly it occurs in the lower part of the small intestine and large intestine but it can occur in any section from the mouth to anus. It has become increasingly common in both Western and developing countries in the past few decades. Most cases start between ages 14 to 24 years. The causes are not specifically known but it is thought to be a dysfunction of the immune system, infection and diet.

*** The symptoms are chronic diarrhea, crampy pain, fever and loss of appetite. Complications can lead to obstructions and infection, with fistulas and cracks around the anus.**

Crohn's disease is also associated with certain disorders affecting other parts of the body such as gallstones, joint pain, inadequate absorption of nutrients, inflamed skin nodules and inflammation of the whites of the eyes. Crohn's disease may flare up at irregular intervals in a severe form or only mildly. Ulcerative colitis on the other hand only effect's the large Intestine and may begin to the lower sections and spread higher. Again causes are not known but hereditary and an overactive Immune responses may be contributing factors. Attacks may be sudden and severe producing violent diarrhea, high fever, abdominal pain with visible blood and mucus in the faeces. The risk of colon cancer is higher in people with long standing, extensive ulcerative colitis. Like Crohn's disease there are associated disorders affecting the same body parts. Antibiotic associated colitis results from the bacteria balance of the intestines being disturbed with disease-causing bacteria being allowed to multiply. Symptoms may only appear after the person has completed the course of antibiotics, maybe even up to 6 weeks later.

Symptoms range from mild to bloody diarrhea, abdominal pain and fever.

Holistic Animal Remedies

Slippery Elm powder (*Ulmus fulva*) also known as Red Elm, Moose Elm or Indian Elm, is a small tree native to North America. It has been a part of traditional herbal medicine for over 100 years, and was used by both Native Americans and early settlers as a survival food during lean times.

A. MEALS DOSING: Add the suggested amount of mixtures (according to pet size) to meals.

(CHRONIC ISSUES, IBS, STOMACH CANCER.)

B. ORAL DOSING: If pet is not eating very well or acute stomach ulcers, stomach cancer, oral ulcers or any other part of the membrane internally, you can successfully use the slippery mixture "orally" via ORAL syringe. *If you need to give mixture "orally" – if pet is not eating, or is in too pain from an ulcer – also buy a empty medium to large syringe from a pharmacy (without needle)*

Make up a mixture:

SMALL ANIMALS - Lightly sprinkle some slippery elm powder into of approx ¼ cup of filtered water.

(for cats - instead of using filtered water, use pink salmon juice and some filtered water) *LARGER ANIMALS – Add some slippery elm powder to approx. 1 cup of fluids. Mix to make a very runny liquid mix. Add more of slippery elm powder if needed. Or more liquids if too thick.*

SUGGESTED DOSAGE:

CAT / TOY dog / small species Gently and slowly squirt at the side of mouth 1 ml. or add to meals

Larger pets (DOGS, HORSE, CALF, FOAL ETC) Give APPROX. 20ml – 50ml or add to some food.

NOTE: If mixture gets too thick or gluggy – continue to add more fluids to keep it a loose runny liquid mix

THIS SUPPLEMENT CAN TREAT MANY CONDITIONS – QUICKLY SAFELY AND GENTLY.

*** "Acute" diarrhoea / scouring**

Give some mixture every couple of hours, stop or reduce frequency when improved.

If "chronic inflammations" or occasional diarrhoea – inflammations.

can add mixture (with plenty of water) to daily meals. then reduce frequency when back to normal bowels.

*** Healing stomach or mouth "ulcers" stomach cancer or Inflammatory Bowel**

Syndrom, IBS etc. *Can give orally before every meal. Normally once or two doses will completely heal stomach ulcers or inflammations.*

HAMPL Pet Cleanse 42 30ml drops (detoxing) use in conjunction with

“Activated Charcoal” Health Benefits

Why “activated Charcoal powder”?

Health Benefits The American Journal of Gastroenterology published a study reporting a scientific claim that activated charcoal can reduce the build-up of **nitrogen waste** in the body; e.g. ..UREA levels (toxic waste) from kidneys. Research studies have also shown that **activated charcoal decreases the toxic load on the body by over 60% with daily use.** This is due to its ability to bind and grab up chlorine, pesticides and herbicides, bacteria, viruses, yeast, parasites, toxic chemicals and endotoxic metabolites.

Endotoxins These are substances that are produced within our body. This would include toxins produced by our gut bacteria, molecules formed by incomplete liver conjugation and ammonia which can arise due to inadequate kidney filtration.

Kidney Cleansing-The kidneys are critical to filtering and removing toxins through the urinary system. Additionally, it takes urea out of the body and when it is functioning poorly it can lead to elevated ammonia, which is extremely toxic to the brain.

Poorly functioning kidneys are also major contributors to blood pressure problems and cardiovascular disease. It also absorbs toxins in the kidneys and livers preventing a toxic overload, and at the same time allowing the vital organs (.. liver and kidneys) in the body to function normally. It also can help to eliminate the toxins in the body because it stimulates the bile flow

SUGGESTION

to assist your pet with – whether acute or chronic kidney weakness. Starting adding activated charcoal to your pets daily meals. e.g. get the "activated charcoal" in powder form.

PUPPY give approx: 1/4 teaspoon of the powder to meals or milk drinks.

ADULT PETS: use 1 capsule of the powder or 1/2 a teaspoon in meals and/or milk drinks.

MULTIPLE PETS (cats and dogs), add 2 capsules or 1 teaspoon the powder into a jar with a screw lid (one or 2 cups of filtered water).

Can add the homeopathic detox remedies (along with) things like the Bioplasma drops (tissue salts) is great for growing infants and run down pets and kittens who may have had parents who were mal-nutrition or feral etc, homeopathic **ParaExpel wormer** and **DrawingOut 16 drops** if teeth or skin issues. Shake before adding to each meal or/milk drinks. pour about a tablespoon or so of the liquid each time.

HAMPLTM Pet Formulas

Holistic Animal Remedies

TWICE a day for one month to help detox from the heavy metals from the vaccines.

Once pet has recovered, continuing using the Activiated Charcoal powder once a day for good health.

For humans a capsule in the evening before bed. Dr Robin Murphy recommends.
