PRODUCT CODE AN212 Ear Fungal (Yeast) Infection Set of 3	Pages : 6
Doc Name : All Species	Related Products :
Last Updated: 13-01-18	

Skin Organ (largest organ in the body)

Common Symptoms in animals maybe seen: red, hot, itchy, and smelly or non smelly odor, sores Allergies are overreactions of the immune system. The immune system is (from the holistic point of view) an extremely complex system, comprising the white blood system (lymphocytes, granulocytes, macrophages, mast cells), as well as the entire system of mucous membranes. It also is closely involved with the normally present bacterial colonies in the mucous membranes

Fungal Infection (*i.e. exposure to mold, yeast infections*) Importance of restoring and maintaining beneficial bacteria, the so-called "friendly flora" in the intestines. These bacteria are killed off by chlorine in your water supply, by Veterinary or Doctor's anti-biotics, by preservatives in food and by alcohol, and by other factors. When the beneficial bacteria are gone, "bad" bacteria, molds, and yeasts (also known as Candida) can then rage out-of-control.

Immune system overload, malnutrition, skin and ear problems, and many other problems shortly follow this. Afflicted by candidiasis, the hidden curse. Candidiasis, an overgrowth of yeast (Candida) in the body, can be a key contributing factor in causing or worsening: * *Food allergies* * *Digestive problems* * *Sensitivity to tobacco and odors* * *Other immune-related disorders, yeast infection in ear!* * *Headaches* * *Depression* * *Cancer* * *AIDS* * *Skin rashes* * *Joint and muscle pain* * *extreme fatigue (known as CFS in humans)* The key to overcoming many such conditions is to undo the actions which caused them to occur in the first place, while restoring balance to the body. **EG Avoiding.....** all dairy (coconut milk is fine), sugar foods and yeast products and foods, avoiding antibiotics (using alternative herbal infection fighters if needing antibiotics)

Fungal Infection (i.e. mold exposure, damp areas etc)

Use **Neem powder (Organic India Neem Capsules - leaves, flowers – from iherb.com)** * **add 1/4 powder from the capsule** in meals three times a week with a pinch of "**Activated Charcoal**" as well. Continue for a month. If it's too strong do only once a week or every second week (.. causing lethargy) *Activated Charcoal " can pull out 4,000 toxins a day. Mold (fungal) infections .. **can be caused from exposure to moldy damp enclosures or rooms** ... can cause sickness - which includes memory loss, headaches, nosebleeds, nausea, diarrhea, bronchitis, sinus infection, asthma type trouble breathing. **Note:** Neem herb also helps detox heavy metals (vaccine toxins), and is also a parasitic (wormer).

STEAM Therapy (if sinus or lung congestion)

Put your pet in the shower room on a mat, towel or your cozy dressing gown, several times a day when having showers and run hot water in the shower for 5-10 minutes each time. Don't let them get wet at all.

HAMPL™ Pet Formulas

Holistic Animal Remedies

The gastrointestinal tract's balance of beneficial flora is most commonly disrupted by:

- * Antibiotic usage
- * Excessive sugar consumption
- * Stress
- * Drinking chlorinated water
- * A diet consisting chiefly of processed tin foods
- * Prescription anti-inflammatory drugs and painkillers
- * A diet high in red meats or rich, fatty foods.

Many people and animals lack sufficient friendly bacteria in their digestive tracts, and are often overrun with unfriendly bacteria and yeasts at the same time. **These people/animals are in fact being simultaneously poisoned and starved (malnourished)**. The effects of the imbalance of intestinal flora are all too often seen in the failing health and vitality of millions of middle-aged and elderly individuals. However, if you have had antibiotics, a high stress level, have been exposed to chlorinated water, or have any of the signs or symptoms of ill health below, you may have a bacterial imbalance beyond the ability of such foods to resolve.

If you or pet have:

- * Chronic fatigue
- * Frequent diarrhea
- * Frequent intestinal gas
- * Frequent constipation
- * Poor immune response
- * Chronic bladder infections
- * Chronic vaginal infections
- * Allergies
- * Skin conditions (e.g. *ear infections, skin odour (fungal), red, itchy, dry, scaly, sores, loss of fur due to excessive scratching.*)
- * Rapid onset of osteoporosi
- * Vitamin B deficiencies
- * Dairy product sensitivities
- * Chronic bad breath

Then this how to rid this YEAST infection that is also internally "systemic fungal immune weakness" The fungal yeast is in your tummy to stay for decades... Once you get too much yeast it will not leave on its own. Not in a year, not in ten years, not in your lifetime. And as long as it is there, it's going to win sooner or later. So here is what you can do for a animal who has had or still has skin allergies, ear infections, smelly odour or ever had antibiotics. (or for yourself)

HAMPL™ Pet Formulas

Holistic Animal Remedies

Systemic infection

means that a fungal infection is throughout the body in organs and other body tissues and may have some manifestations on the skin. Internal means that the infection is largely confined to the digestive or reproductive tract. Sometimes treating the infection in the gut removes the source enough such that systemic infections are resolved. Sometimes a fungus has such a foothold in the tissues (usually due to toxin involvement) that systemic measures are necessary.

Naturopathic suggestion:

~ **Neem powder (Organic India Neem Capsules - leaves, flowers – from iherb.com)**

* **add 1/4 powder from the capsule** in meals three times a week with a pinch of “**Activated Charcoal**” as well. Continue for a month. If it’s too strong do only once a week or every second week (.. causing lethargy) ***Activated Charcoal**” can pull out 4,000 toxins a day

~ **Vitamin C** fights fungus directly as well as helps remove toxic metals in the body which may contribute to the problem. Some say systemic fungal infection is most prevalent in those who harbor metal deposits, especially mercury, in their body and that it may be impossible to cure unless they are removed or at least reduced. We prefer a non-acidic product, Sodium Ascorbate Vitamin C powder is also good.

~ **Oregano oil** (from North American Herb and Spice Co.,) which is prediluted, can be taken 3- 5 (up to 10) drops mixed in some water three times or more per day. And add to herbal diluted mix. Oregano oil is one of the most effective antifungal supplements, followed by olive leaf extract. Oregano oil can be used internally or externally, unlike tea tree or camphor oils which should only be used externally.

~ **Colloidal Silver** is usually helpful fighting fungal infections. A high dose regimen is 3 tsp mixed in with herbal dilute mix for each dosing.

~ **New Life Colostrum Plus Immune Formula** Immune Formula combines the powerful immune supporting benefits of New Life Colostrum with Beta-lipid, olive leaf extract, Larch arabinogalactin, lactoferrin, and Beta 1,3 Glucan. This formula helps support the immune system.

~ Helps provide the body with antibodies for several pathogens, including viruses, yeasts, and bacteria ~ Helps inhibit binding of pathogens to stomach and intestinal lining ~ Helps enhance the growth of beneficial gut microflora while stimulating natural killer cell cytotoxicity ~ Stimulates a non-specific immune response, creating a powerful defense against viral, bacterial, fungal and parasitic invaders ~ Deprives pathogens of the iron they need to survive

Further Information on Colostrum. Using or taking Colostrum powder (or capsules) help support those who have autoimmune diseases in several ways. Firstly, by healing the intestinal lining, secondly by reducing inflammation, and third, by slowing an overactive immune system response. People and animals with autoimmune diseases are among the first to notice the benefits of colostrum. NB: Cancer, diabetes, IBS, leaky gut, colitis, canine and feline virus, arthritis, lupus etc are just some of the conditions that are autoimmune conditions. Colostrum contains many substances that play a critical role in the healing of leaky gut syndrome. Its many beneficial factors focus their efforts in this area of the body where an overwhelming majority of diseases and infections gain entrance. ..cont page 4

HAMPL™ Pet Formulas

Holistic Animal Remedies

One of the first things colostrum does is repair damaged tissue and seal the mucus layer of the intestines, making it impermeable to viruses, bacteria, fungi, toxins and parasites.

Some of the growth factors contained in colostrum have an anti-inflammatory effect which is a big factor in the initial healing of leaky gut syndrome. Without a leaky gut many other conditions can simultaneously and positively be affected, and this in turn greatly reduces the toxic load on the body and increases nutrient uptake. As this intestinal lining is healed, food allergies are reduced and often disappear entirely. The immune response is enhanced and the first line of defense in the bowel is returned back to a more normal function. The enhanced nutrient uptake supports other vital tissues and organs.

This is why organ function improves and energy levels rise, and because the proper function of the gastrointestinal track is so vitally important to so many processes in the body, the healing of leaky gut syndrome is monumental. Colostrum is highly recognized for its effects in this area.

Animal Dosage:

Cat or toy dog: Use half to 1 powder from a capsule.

For larger pets or animals: mix powders from 2 capsules.

Repeat once daily or repeat dosage three (3) times a day if pet has a fungal or bacteria or virus infection anywhere on body or internally.

Application: *It is best absorbed in fluids on an empty stomach. So we suggest mixing the powder in some fluids.* For small pets, mix powder in 1 teaspoon for 2cc of liquid and oral syringe as cats do not normally drink fluids very often.

For med to large dogs, animals add powder to about a tablespoon of fluid and offer or oral syringe.

*Type of fluids options: filtered water, goat's milk (not cow), goats yogurt, or chicken broth. Do this for a min of 4 months for optimum health.

Herbal Medicines

HAMPL Systemic Fungal 283 50ml (1.7oz) liquid

Herbal dosing Instructions

Cat, Toy dog, other small animals: See BOTTLE LABEL for amount of drops to use. (then pouring a three to four tablespoons of hot water to dissolve alcohol with ½ teaspoon of slippery elm powder – stir well to make a thick paste. * optional using the slippery elm powder (this helps hid the taste). Then add some more liquid of water or pink salmon juice (if you didn't use slippery elm powder). to make about 30ml of liquid.

Using a small oral syringe give small sips in side of mouth until 1ml is taken) twice to three times a day. Or add to meals if pet is happy to eat in food.

Small dog; See BOTTLE LABEL

Med dog: See BOTTLE LABEL

Med – large dog: See BOTTLE LABEL

With dogs, you can add directly into some food and hand feed it, so you know they are getting a dose. Can add it to some mashed sardines (tin of sardines in spring water from supermarket) or unsweetened applesauce or some cooked sausage meat etc.

Severe Infection treatment dosing guide

TREATING ACUTE "SYSTEMIC" FUNGAL INFECTIONS

If your pet is vomiting or unable to hold solids foods, we suggest this method in liquid dilution oral dosing so it goes into the blood stream straight way and not going through and processed in the stomach.

REPEAT ORAL DOSING: repeat every 1/2 hour

Repeating for 4 treatments. Do this short dosing sessions twice to three times a day for the first day. Following day you should be seeing improvement. If so reduce to repeat dosing hourly. 4x daily dosing. Continue until improvement again, then reduce to 2 – 3 x daily for longer until all health has been restore.

Then upon further improvement, you could then add the herbal dose in some sardines (tin of plain sardines in spring water) and hand feed the piece with herb dose in it – repeat three to four times a day for as long as needed and infection is clear. **NOTE:** Results should be seen within 24 hours, if not add more herbs to the liquid dilution. **If too strong tasting for your pet, add more liquid to dilute a bit more.** Or try adding some water with some well mashed sardines. So its still almost liquid dosing.

HAMPL™ Pet Formulas

Holistic Animal Remedies

Chronic Infection dosing

TREATING CHRONIC "SYSTEMIC" FUNGAL INFECTIONS. Can add drops to meals or sardines and hand feed – three times a day for 2 months In conjunction with: Probiotics powder and Colostrum powder, Neem Capsules, Vitamin C added to herbal dosing mix. Add Colloidal Silver to water dish ongoing for 3 – 4 months.

COLOSTRUM Powder

~ Colostrumhealth 100% pure Colostrum Powder AUD39.00

<http://www.colostrum.gen.nz/> Order online.

OR ~ **New Life Colostrum Plus Immune Formula** Immune Formula combines the powerful immune supporting benefits of New Life Colostrum with Beta-lipid, olive leaf extract, Larch arabinoglactin, lactoferrin, and Beta 1,3 Glucan. This formula helps support the immune system. **http://www.ritecare.com/NewLife_Colostrum_Ori.asp#3**.

AND/ OR

PROBIOTIC Powder

~ " **ProBiotic 12 Powder**" * **200 Billion CFU's** (brand - Seeking Health)

This probiotic can be purchased from Seeking Health website or other websites also sell this.

* Mix some ¼ teaspoon of the powder into pets meals or some plain yogurt and offer or oral syringe.

OR ~ " **RAW Probiotics Ultimate Care**" **Capsules** ***100 Billion CFU's** (brand- Garden of Life).

This probiotic can be purchased from Garden of Life can be purchased at www.iherb.com Open cap and mix (1/4 or a good pinch) of the powder into pets meals or some plain yogurt and offer or oral syringe.

They are expensive, but they work the best I have ever tried. I have tried many and they just didn't make a difference. Many of the Probiotics are very weak, these are all strong probiotics, so you don't need much per day. If initially it upsets the stomach, or loose stools, what works is to take a lower strength of a Probiotic for 2 weeks, then go back to the powerful one and all will be good, **Pets and the whole family can take these.**

**** It takes 2 months to fully restore gut flora **** **Note:** whether your pet has an infection or not (parasite, bacteria or fungal) or past or present Antibiotic drugs use, your pet needs this foundation of healing in the gut.

AVOID - Antibiotic drugs and other toxic drugs, sprays and products. Vaccines severely deplete the body of vitamin C. Either get a **titer test** done to prove your dog or cat is still fully covered or /and use the homeopathic oral nosode vaccines. If needing to take antibiotics, use the potent and safe herbal antibiotics **HAMPL Infection Fighter 71 50ml liquid.**
