## Holistic Animal Remedies

Product Code <b>AN050</b>	<b>Natural Equine Wormer</b>	Pages: 1
<b>A herbal and homeopathic combination wormer</b>		
Last Updated: 11-06-18		

### HAMPL Equine Para 50 100ml Liquid

**Contains Homeopathic and Herbal Blend:** Garlic, Wormwood Leaves extracts, Cascara Sagrada bark (safest herbal laxative known, has antibiotic effect on harmful bacteria, stimulates secretions of the entire digestive system), Barberry root bark (deep cleansing agent, kills worms), Senna leaves (general anti-parasitic), Rhubarb root (anti-parasitic, especially pin and round worms, helps constipation), Cayenne (astringent, stimulates digestive system, releases intestinal waste, including worms) **With Homeopathic nosodes of Ascarids (roundworms), Strongyles and Strongyloides (blood worms), Oxyuris (pin worms), Bot, tapeworm, lymph, hydrastis, spigelia, cina, and** Bach Flower Crab Apple (general detox),

This herbal worming treatment utilizes bitter and astringent herbs which work to tone up the gut wall and expel worms, leaving the gut in better condition to manage its own parasite population.

The damage done to the gut and the metabolism as a whole with the routine use of chemical wormers to try to maintain a zero worm load, leaves the animal less healthy in the long run than one with a healthy gut and a small natural worm load.

## Dosage and frequency suggestions:

### **Frequency of Dosing:**

One dose twice daily for 5 days. Then one dose per day for the next 4 weeks. Follow this regime every 3 to 6 months

**Repeat twice yearly.** (or more frequent if you desire)

Worm— both dam and sire before breeding to ensure worm free offspring.

### **Application of dosing:**

#### **Mare or Gelding**

Using an Oral syringe dilute 25 drops (approx 1 ml) in some fluid e.g apple juice.

**Colt or Filly:** 5 drops

Same frequency for all age and sizes.
